## Lincoln Celebrates Friendship Month

As we have all been navigating through the pandemic and social distancing, we have learned new ways to connect, and even tapped into some old ways to keep our friendships strong. In celebration of #NationalFriendshipDay on August 2nd, Lincoln is celebrating Friendship Month for all of August. Here are some tips to help you keep in touch:

- Reach out to old friends from school, your neighborhood, or friends you met at a previous duty station. Reconnecting and reminiscing could bring some much needed laughter and good vibes during a tough time.
- Build new memories and meet new friends by joining one of Lincoln's upcoming virtual events. These events will allow you to connect with other military families. In August, Lincoln will be hosting Dinner and A Class, Spouse Club, Marriage Seminar, and Stroller Strides virtually.
- Zoom and other video conferencing platforms are a great way to safely have facetime with people you're missing. If you're finding video calls exhausting, Facebook and Netflix now have Watch Parties to allow people to watch videos together, taking some of the focus away from having to be on camera the whole time.
- Mail cards to let your friends know you are thinking of them. This is a great way to send a long distance hug and let them know they are supported.
- Use a phone and call your friends and check on them. Friendships add support and comfort and with the current pandemic causing a rise in depression, your friends might need a friendly voice to cheer them up.
- As parents, take some time to role-play making new friends with your kids so they are ready for when they go back to school.

**“True friends are always  
together in spirit.”**

L.M. Montgomery

Friendships can lead to overall better health, being happier, gaining experiences, the feeling of being supported, a sense of belonging, and more. From all of us at Lincoln, thank you for being our friend! We look forward to connecting with you all month at our events! Keep reading this newsletter to find all the opportunities to connect this month!

**The Marine Corps Police Department would like to remind housing residents of the following provisions of MCIWEST-MCB CAMPENO 5000.2 (Base Regulations) and MARADMIN 176/14 (Interim Guidance for Privately Owned Firearms Policy Aboard Marine Corps Installations).**

- All privately-owned weapons brought aboard MCB CamPen for storage must be registered and on file within 72 hours after having been introduced aboard MCB CamPen.
- Personal weapons will be registered at the Marine Corps Police Department, Police Records section, building 1523. The hours of operation are 0730-1530 Mon-Fri. Closed all holidays.
- Except in the case of assault weapons, it is not necessary to bring the weapon to the Police Records section to register the weapon if the owner has a Dealer's Receipt of Sale. The Dealer's Receipt of Sale is necessary to verify the manufacturer, model, serial number, and caliber of the weapon. If there is a possibility that the weapon may be classified as an assault weapon, the weapon must be presented for inspection at the time of registration.
- Registrants are required to deregister their weapons within 72 hours of their sale or removal from MCB CamPen.
- Personal weapons and ammunition will not be kept or stored in privately owned vehicles, barracks, BOQs, BEQs, Temporary Lodging Facilities, in boats kept at the Marina, in any vehicle in storage lots, or office spaces.
- Personnel residing in family housing (other than the temporary lodging facilities) may store their registered weapons in their quarters. Marines are expected to handle privately owned firearms with the same level of safety and professionalism that is required when handling their individual T/o weapons. All privately owned firearms will be stored in a fully encased container (e.g. commercial gun safe, hard plastic case etc.) that is capable of completely enclosing the firearms and being locked with a key or combination lock. All weapons will be fitted with a trigger lock. Ammunition must be stored separately from firearms and in a container capable of being locked with a key or combination lock.
- Storage of any ammunition greater than small arms ammunition, to include explosives, in government owned quarters is prohibited.
- Privately-owned weapons and ammunition owned by personnel residing in BOQs, BEQs, and barracks will be stored in unit armories. Base housing residents may not store weapons for Marines in order to circumvent the requirement for the Marine to store the weapon in an armory.
- Transporting privately owned firearms is authorized in POV's to and from an authorized storage area or to an off base location consistent with federal, state, and local laws. They may also be transported to and from on base areas where firearms use is authorized, such a hunting areas or recreational shooting ranges. Provided:
  - The weapon is within a motor vehicle, and it is unloaded and locked in the vehicle's trunk or in a locked container in the vehicle other than the utility or glove compartment.
  - The weapon is carried by the person directly to and from any motor vehicle for any lawful purpose (i.e., collectors organization meeting, hunter safety class, recognized sporting event involving that weapon, gun shop, gun show, or swap meet, target range, etc.) and while carrying the weapon, the weapon is unloaded and contained within a locked container.
- Carrying concealed privately owned firearms is prohibited aboard MCB CamPen even if the owner has a state concealed weapons permit.

If you have questions, please call the Police Records section at (760) 725-0819
